VIRTUALLY INDESTRUCTIBLE

Our Indestructibone is made for dogs that destroy their other "tough" chew toys with ease! If you have been looking for a long lasting and safe chew toy for your dog, then your search is over!

SPECIALLY DESIGNED

Our chew toy although hard, is softer than real bone and antlers. Our patent pending design makes our chew toys last longer than other leading chew toys without the risk of splintering or damage to your dog's teeth.

Our chew toy is specifically designed to not break off in big chunks like other chew toys can. It is made to flake off in tiny pieces that will pass.

JUST ADD TREATS

The Indestructibone dog chew toy has a small treat hole on each end of it to put the dog's favorite treat into. The ability to change the treat keeps the Indestructibone engaging and fun! Also, you can choose a treat that your dog loves! Lots of dogs like the Indestructibone without treats!

90 DAY – 1 TIME REPLACEMENT GUARANTEE

The Indestructibone comes with a no hassle 90 day – 1 time replacement guarantee. If the Indestructibone reaches a specific length within 90 days, we will replace it for free! We make it easy to get a replacement! Just send us a picture of the Indestructibone next to a tape measure and proof of purchase and we will send a replacement right out!

Less than .05% of dogs have destroyed an Indestructibone in 90 days or less. Most Indestructibone chew toys last 6 months to a year or more!

MADE FOR ALL SIZE DOGS WITH EXTREME CHEWING HABITS

- Mini – dogs up to 15 lbs.
- Original – dogs 15-29 lbs.
- XL – dogs 30-50 lbs.
- XL Plus – dogs 51-100 lbs.
